OBJECTIVE

First-year B.Tech student building strong foundations in Computer Science through C++, DSA, and problem-solving. Interested in AI Systems Engineering and long-term applications of machine learning in sports analytics and intelligent systems. Focused on deep understanding, structured learning, and building real projects.

EDUCATION

Bachelor of Technology (B.Tech)

ITM SKILLS UNIVERSITY

Expected Graduation: 2029

Relevant Coursework:

- Programming Fundamentals
- Data Structures and Algorithms
- Web Technologies
- Mathematics for Computing

SKILLS

Programming

- C++
- JavaScript (Learning)
- HTML
- CSS
- React (Learning)

Core CS

- Problem Solving
- Arrays

- Pointers
- Functions
- Linear Search
- Memory Concepts
- Debugging

Future Focus

- Data Structures & Algorithms
- Machine Learning
- AI Systems
- Sports Analytics

Tools

- GitHub
- Blender
- VS Code

PROJECTS

Array Toolkit

Built a menu-driven C++ tool implementing array operations:

Features:

- Search element
- Maximum/Minimum
- Reverse array
- Even/Odd count
- Sum and Average

Technologies:

- C++

Search Visualizer

(Planned / In Progress)

Building a tool to visualize and compare searching algorithms.

Planned features:

- Linear Search
- Binary Search
- Step-by-step traversal

Technologies:

- C++

AI Football Analytics System

(Future Project)

Planned intelligent system for football analytics using machine learning and player performance data.

Possible features:

- Performance trends
- Player comparison
- Match statistics analysis

Technologies:

- Python
- ML
- Data Analytics

LEARNING JOURNEY

Current Focus:

- C++ foundations
- DSA
- Problem-solving
- Mathematical thinking

Long-Term Goals:

- AI Systems Engineering
- Intelligent Applications
- Sports Analytics

ACHIEVEMENTS & ACTIVITIES

- Building structured long-term programming roadmap
- Consistent practice in C++ and DSA
- Exploring Blender as a creative skill
- Football player with strong interest in analytics and strategy

PERSONAL PHILOSOPHY

Logic before memorization
Build before consuming
Consistency over intensity
